NOTES
(A) 1 ECTS = 25 hours of student work, of which 5 hours of classroom activities, 15 hours of individual study, 5 hours of exam preparation. Conventional definition of the student workload corresponding to 1 ECTS: 60 ECTS measures the student workload during one academic year, equivalent to 1500 hours of total work.
(B) Activities completed within each academic year will be reported and countersigned by the supervisor on the student's personal <i>Transcript of Records</i> document (ToR).
(C) 20% of the expected ECTS during each academic year can be obtained during the previous or the following academic year (but always within the three-year PhD).
(D) FORM = interdisciplinary training focused on the promotion and management of research results and intellectual property, and on the knowledge of European and International research systems (https://www2.units.it/dott/en/?file=Formazione.inc)
