Quotation 24074.pdf;

Dear Simone,

thank you very much for your feedback.
In the attachment you will find our quotation number 24074.

We hope that meets your expectations. If you have any further questions please let us know.

Kind regards
Birgit

Betreff: RE: quotation request

Dear Raimund,

Ok perfect, I follow your suggestion. Could you please add 5gx2 of Fmoc-Trp(Boc) FAA1339?

Best regards,

Simone

Dear Simone

Thank you for your fast feedback.

Regarding Fmoc-Trp (no matter whether D- or L- form) more than 95% take the Trp(Boc). This is also what we always have on stock. And it is cheaper than the unprotected...

I would recommend to take the Trp(Boc) FAA1339.

My colleague Birgit will send you our offer

Mit freundlichen Grüßen / Best regards

Raimund

<SIMONE.ADORINNI@phd.units.it>:

Dear Raimund,

1. Yes, I want Fmoc-L-Cys(Trt)-OH
2. I have used the unprotected amino acid, do you think that it is better use the protected version?

Kind regards,

Simone

Thank you for your message. Please confirm/answer two questions:

1. Judging from the CAS number 103213-32-7, you want the side-chain protected Fmoc-L-Cys(Trt)-OH, correct?
2. CAS 86123-11-7 stands for the "unprotected" Fmoc-D-Trp-OH (www.iris-biotech.de/faa1505). Do you really want this one or rather the protected Fmoc-D-Trp(Boc)-OH (www.iris-biotech.de/faa1339)?

Kind regards
Raimund

Subject: quotation request

Dear Raimund

I am Simone Adorinni a Ph.D. student in chemistry at University of Trieste in the group of Prof. Marchesan

I would like to ask you a quotation for these amino acids:

1. Fmoc-Rink Amide Linker CAS: 126828-35-1 25g
2. Fmoc-L-Cys CAS: 103213-32-7 25g
3. Fmoc-D-Trp CAS: 86123-11-7 5gx2
4. Fmoc-L-Ala CAS: 35661-39-3 100g
5. Fmoc-AEEP CAS: 872679-70-4 5g

I would like also to ask you it is possible to have a discount.
