Dr. Luka Suhadolnik

To prof. Paolo Tecilla

Director of the Department of Chemical and Pharmaceutical Sciences

Object: Justification to present a single commercial offer

The offer includes new plastic parts that are needed for my MSCA project. The parts have to be made by the same company producing them two times before. The reason for ordering additional parts is that the research is highly complex and I could not plan what I need beforehand. Now, it turned out that the catalysts prepared from high entropy alloys are highly active, however, I experience some issues with their preparation. This is why a new, greatly improved anodization setup has to be produced and the device for inserting of HEA discs into the Teflon holders. I need additional holders since I have to prepare many more samples than I expected.

With my best regards,

Dr. Luka Suhadolnik

Hello,

Please, send me an offer for the production of:

- 1) 15 PTFE holders for HEA electrodes
- 2) anodization cell for HEA electrodes
- 3) device for insertion of HEA electrodes into PTFE holders

Thank you. Best regards, Luka
